IS YOUR WEBSITE READY TO DO ITS JOB?

67/100

Clunky

The normal SMB danger zone: enough friction to cost attention and leads.

Website Readiness Score. Higher is better. It measures readiness across speed, findability, accessibility, trust, action and credible copy.

https://easyget-customer.pages.dev/

Does it load fast enough?

PERFORMANCE & TECHNICAL

69/100

Run a technical cleanup: Core Web Vitals, image weight, scripts and hosting.

- Mobile Lighthouse performance: 64/100.
- Transport checks: HTTPS passed, SSL passed, HTTP/2 passed.

Will anyone find it?

SEO & DISCOVERABILITY

10/100

Repair the page fundamentals: metadata, headings, schema, sitemap and crawlable copy.

- No structured data (JSON-LD) found.
- No canonical link found.
- Only 97 words of page copy; thin pages rarely rank.

Can everyone actually use it?

ACCESSIBILITY

85/100

Keep monitoring this area, but fix weaker categories first.

- Accessibility started at 100/100 and lost 15.3 points across 4 failed axe rules, resulting in 85/100.
- Elements must meet minimum color contrast ratio thresholds (serious; 61 affected elements; -8.5 points). Fix: Increase text/background contrast to WCAG AA, checking the final loaded background rather than a placeholder.
- All page content should be contained by landmarks (moderate; 209 affected elements; -3.5 points). Fix: Place visible page content inside an appropriate main, nav, header, footer or labelled region.

Does it feel trustworthy?

TRUST + VISUAL POLISH

88/100

Keep monitoring this area, but fix weaker categories first.

- No Organization or LocalBusiness structured data found.

Does it help people take action?

CONVERSION + LAYOUT

92/100

Keep monitoring this area, but fix weaker categories first.

- 3 above-fold CTAs found.
- 5 CTAs across 36 interactive elements.
- Forms labelled: 1/1.

Does the copy feel credible?

COPY CREDIBILITY

73/100

Keep monitoring this area, but fix weaker categories first.

- 107 words analysed with low confidence.
- 0 generic AI-shaped phrase hits found.
- Specificity density: 4.67 markers per 100 words.

AI VISIBILITY SIGNAL CHECK

44/100

Hard to retrieve or cite

The page is currently hard for AI-assisted search to retrieve, understand or cite with confidence.

Direct checks from this scan.

Crawler access	**22/25**
Entity clarity	**2/25**
Answer readiness	**10/30**
Public evidence	**10/20**

Priority opportunities

Entity structured data · 0/10
Add accurate Organization or LocalBusiness schema and connect it to the services or products described.

Useful crawlable detail · 0/10
Add specific, useful copy that answers the questions customers ask before choosing this business.

Descriptive title and summary · 0/5
State what the organisation offers and who it serves in the title and meta description.

About or contact trail · 0/5
Link clearly to an About and Contact page so the organisation can be verified.

Direct question coverage · 0/5
Add concise sections that directly answer real customer questions, without padding or FAQ spam.

Lists, tables or definitions · 0/5
Use lists, comparison tables or definitions where they make the answer easier to extract and verify.

This measures public readiness signals, not whether any model will rank, recommend or cite the site for a particular prompt. Methodology: clunky.ai/methodology/ai-visibility
